## **CAMBIA HEALTH SOLUTIONS COMMITS \$11.5 MILLION TO ADDRESS MENTAL HEALTH NEEDS IN RURAL COMMUNITIES**

*Donation will increase access, improve quality of care and support behavioral health needs*

PORTLAND, Ore. – Cambia Health Solutions and its regional health plans – serving members across Idaho, Oregon, Utah and Washington – are making philanthropic donations totaling more than \$11.5 million to help meet the urgent mental and behavioral health needs intensified by COVID-19 in local rural communities.

This funding will increase access to behavioral health services with a focus on:

- Programs that provide 24/7 support to people in crisis or emotional distress
- expand the capacity of established safety net programs to meet current and emerging needs, and
- support work to reduce the stigma and discriminating barriers that prevent individuals from seeking services.

“There is a rising need for mental and behavioral health services across our communities, and we are honored to partner with non-profit organizations in Idaho, Oregon, Washington and Utah to bring additional support and resources to people and families living in rural areas of those states,” said Peggy Maguire, Senior Vice President, Corporate Social Responsibility at Cambia Health Solutions. “We are confident these philanthropic investments will help break down the stigma surrounding mental health and improve access to behavioral health support services in order to positively impact the overall health and wellbeing of the communities we proudly serve.”

The following community partners will be receiving funds as part of these strategic investments:

### **Idaho**

- [Idaho Suicide Prevention Hotline](#)
- [Idaho Primary Care Association](#)
